

# 5 reasons to say YES to our Diabetes Clinic

## 1 You get a whole team devoted to YOUR goals.

Your team includes a Certified Diabetes Educator, nurse practitioner, and pharmacist who get to know you and make sure you're set up for success.

## 2 You get personalized advice and support.

You and your team will make a custom plan with the simple, everyday changes that will work best for you.

## 3 You pay \$0.

Plus, we'll check that you're making the most of your plan benefits — like no-cost diabetes testing supplies.

## 4 It's convenient.

The whole clinic is virtual, with 1-on-1 phone or video calls that we plan around your schedule.

## 5 It works!

In 2022, members in the clinic lowered their A1c by over 2 points in just 3 months — and felt more confident in managing their diabetes.
