

Devoted Medical General Consent to Care and Treatment

This form is a general consent to get care from Devoted Medical doctors and other healthcare providers — not just for a single appointment or health condition. This consent lasts until you tell us in writing that you've changed your mind.

We're not recommending a specific treatment plan right now. This form is asking for your permission to evaluate you so we can make recommendations about care (exams, tests, or treatments) for your condition. You always have the right to decide whether or not you want to get the care we recommend. Before we recommend you get any treatment, we'll explain:

- What treatment we plan to provide, and whether it's the standard treatment for your condition
- What other treatment options you have — including no treatment
- What the risks and benefits of the treatment are

You have the right to stop getting care from Devoted Medical at any time. You always have the right to talk with your other doctors or healthcare providers about why we recommended a test or treatment — and what the risks and benefits are. If you have any concerns about your Devoted Medical provider's recommendations, we encourage you to ask questions.

By signing below, you agree that:

1. Devoted Medical can provide care at your home or at another location we agree on
2. Devoted Medical isn't making any guarantees about the outcome of any care you get
3. You may need to read and sign separate consent forms for specific tests or treatments that Devoted Medical recommends

By signing below, you certify that you have read the above statements, you fully understand them, and you voluntarily agree (consent) to them.
